Good morning Randy,

We wanted to have a follow-up call with you on the proposed fishery we discussed last week. Wanted to cover some additional thoughts we had related to summer chum management.

Please let me know when you and Scott are available as my schedule is mainly open for the rest of the week.

Thanks,

Thanks Randy, I'll put it on my calendar.

Talk to you then,

James,  
Let's plan on 1pm Thursday then, we'll call you at the number you provided.  
Thanks, and hope all is well with you, and that you're not too stressed with all the fisheries issues!  
Randy

Randy,

Thanks for reaching out. This sounds like a great development for your fishermen!

I have time at 10:00 and 11:00 on Wed morning or anytime in the afternoon on Thursday.

You can reach me at 360-522-3673.

Thanks,

Hi James,

Scott and I would like to request a meeting with you next week, if possible with your busy PFMC and related issues schedule. I think we would only need less than a half hour, and we were thinking maybe sometime on Wednesday or Thursday, either March 10 or 11.

We would like to review with you our plans for a S'Klallam Tribes' fishery in Hood Canal this fall, targeting harvestable hatchery chinook. As you may be aware this fishery would represent a return to fishing for chinook after an 18 year hiatus. We are designing the fishery to avoid summer chum and Mid-Canal chinook impacts, and we want to make sure NOAA is aware of the details, and to see if there may be any concerns or questions.

If next Wednesday or Thursday should work could you let us know a preferred time and we'll set up a call-in number.

Thanks  
Randy
