**Subject:** RE: PS fishery tables?

I can dig them up, but if you have a final TAMM output for Chinook and Coho, they are contained as a tab within those workbooks.

Let me know and Ill get them to you asap.

Mark

Yes, thanks Mark,

Do you have a historical set of these for last few years?

Don't want to give you more work so please don't consider this request high priority.

Thanks,

Hi Mark,

Hope you are well. Would have copies of those annual tables that you produce which show the months/weeks and areas that are open and the type of fishery open, e.g., msf/non-msf? Not sure how long the dept has been producing those but I would appreciate any and all of them that you can share.

Thanks much!
