Hi Diego,

I will still be reaching out on Thursday but I can say at this point that we will not have the biop done 5/1. My goal is as early the week of the 3rd as possible. Will know more by Thursday.

Sorry but hope that helps.

Thanks,

Hi James,

Jason is meeting with Tulalip Fish Commission this evening, and wondering if you have any news regarding the biop process pertinent to Tulalip upcoming 8D Chinook fishery. You mentioned that perhaps by Thursday we would know, but just wondering if that's still the case (hopefully earlier).

Thanks!

Diego

Good afternoon Kate and Diego,

I'd like to have a quick call to give an update on our biop process and schedule for this year. I have time tomorrow, anytime after 9:00. If you could let me know if there is a good time for you, I can set up a call. Should only take about 15 mins.

Also let me know if another day/time works better?

Thank you,
