Susan:

Apologies – We completed the comanager report a couple of weeks ago, but never submitted the final version to you. Please the attached file.

Thanks,

Kyle

Subject: Status of final 2016 Terminal Freshwater Performance Report

Hey guys,

Working my way through the biological opinion on the joint agreement and realized that I don't think I have the final co-manager follow up report to the performance assessment. Chris had provided a draft for the tribal opinions, but my understanding was that the report would be finalized for this opinion. Is that still true and could you send it as soon as possible? That way I can incorporate it into the opinion. Better to have a final joint report for the record.

Thank you,

Susan
